

#6

RENA-  
CHAN?

RENA-  
CHAN

SAVE  
TO  
YOU!

THIS IS  
AWESOME!  
THANK YOU,  
RENA-CHAN!

井ノ口

IT'S  
OKAY!  
EVERY-  
THING'S  
FINE.  
HE  
SAID  
HE  
WANTED  
TO SEE  
THE SKY  
TREE.

HOW  
DID IT  
GO WITH  
ACH-KUN?

A STRESS-FREE STRATEGY  
FOR THEM TO BATTLE THE BOYS OUT

I KNOW EVERYTHING ABOUT...

HUH...

THAT'S NOT TRUE.

WE'RE WITH EACH OTHER EVERY DAY.

!

IT'S A MYSTERY WHY YOU DIDN'T GO FOR HIM!

ISN'T WON-KUN IN YOUR CLASS?

THOUGH IF YOU HAD, IT WOULD HAVE KILLED ME.

~ ANYWAY!

HUH?

COME TO THINK OF IT,

I DIDN'T KNOW HE WAS SO SMART.

I SEE

BUT  
SAKUN-KUN  
IS MORE  
MY TYPE.

AND OF  
COURSE I  
THINK HE'S  
CUTE.

IT'S A  
MATTER  
OF  
TASTE.

IT'S  
TRUE THAT  
NAMIDA-  
KUN IS THE  
MOST  
POPULAR  
GUY IN  
MY CLASS.

FOR SOME  
REASON.

I GET  
THE FEELING  
YOU SHOULD  
GIVE UP  
ON NAMIDA-  
KUN.

BUT

THIS  
IS BAD!  
I HAVE TO  
CHANGE  
CLASSES  
BEFORE  
THE  
PERIOD!

OW!

OH! WELL, THAT MESSY CLASS IS  
A PASTOR!

YOU  
COULD  
SAY  
IT'S  
BECAUSE  
I HAVE  
GOOD  
INTUITION.

AA  
WELL...

HUH?  
WHAT  
WAS  
THAT  
ABOUT?

WE  
FINALLY  
HEADED  
OUT  
TO THE  
SKYTREE!

AND  
THEN  
IT  
WAS  
SUMMER  
VACATION.

THE  
CITY  
LOOKS  
JUST LIKE  
A MODEL

WOW!

WHAT  
A GREAT  
VIEW!

WHAT'S  
THAT OVER  
THERE?  
A PARK?

THAT  
BLACK  
AT-  
TITUDE  
LOOKS  
REALLY  
GOOD  
ON  
HIM

HE  
LOOKS  
KIND OF  
MATURE  
AND  
HAND-  
SOME

THE  
VIEW  
FROM  
THE  
TOWER  
TALL

WE  
WENT  
HAPPY  
WITH  
CLOTHING

THAT'S...SAILOR?

WITH  
THE CUTE  
AND  
STAND-  
OUT  
GENA-  
CHAN?

THEY  
LOOK  
LIKE  
THE  
PERFECT  
COUPLE!

THEY  
BALANCE  
EACH  
OTHER  
PERFECTLY.

HE  
WAS  
THIS

HAND-  
SOME?

marmalade boy  
Suzuki

SP's PUNCH

COMET NEOWISE  
WILL FINALLY  
REACH US  
THIS AUTUMN.  
IT IS ANTICIPATED  
THAT IT MAY  
BE THE BRIGHTEST,  
LARGEST  
COMET IN  
100 YEARS.

OH.

THIS  
TIME  
WILL  
BE THE  
FIRST AND  
LAST  
CHANCE TO  
SEE THE  
COMET.

HOWEVER, CORRECTING THE ORBITS OF  
A COMET'S BRIGHTNESS IS AN  
EXTREMELY DIFFICULT JOB.

THERE ARE NUMEROUS CASES WHERE  
A COMET DOES NOT BECOME AS  
BRIGHT AS WAS HOPEO.

COMET NEOWISE IS DIFFERENT FROM THE  
CLASS OF COMETS THAT HALLEY'S  
COMET BELONGS TO, WHICH HAVE ELIPTICAL  
ORBITS AND PERIODICALLY RETURN  
TO THE SAME SPOT.

COMET NEOWISE ORBITAL TRAJECTORY IS A  
HYPERBOLIC CURVE. IT WILL NOT RETURN  
HERE A SECOND TIME.

IF WE AND  
A-DI-KUN,  
JUST THE  
TWO  
OF US,  
COULD SEE IT  
TOGETHER,  
HOW  
DREAMY -

IT  
WOULD  
BE  
NICE IF  
IT WERE  
BRIGHT.

I  
WONDER  
WHAT  
DATE  
AND  
TIME  
IT  
CAN BE  
SEEN?

G.

ALL DONE!

IT LOOKS SO ELEGANT.

I GOT A BLUE SKY-TREE!

OH, YOU HAVE TO ASSEMBLE IT.

HEY, WHY DON'T WE OPEN THOSE CAPSULES WE GOT EARLIER?

OH! YOU'RE RIGHT! LET'S OPEN THEM TOGETHER!

OH! GOOD FOR YOU, YOU GOT A BLUE ONE!

THUNDER RATE.

I GOT A PURPLE SKY-TREE!

SO PRETTY

WELL, LET'S TRADE THEN!

I WOULD HAVE BEEN HAPPY IF IT WAS THE ONE THAT COULD LIGHT UP...

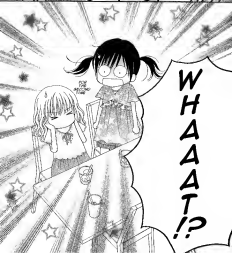

I GOT THE COMMON WHITE SKY-TREE VERSION.

WHAT!?
